The 13th Webinar for Quantitative Genetics Tools for Mapping Trait Variation to Mechanisms, Therapeutics, and Interventions

Become a UseR: A brief tour of R

Friday, March 12th, 2021
10am PST/ 11am MST/ 12pm CST/ 1pm EST

Presented by:
Dr. Gregory Farage & Dr. Saunak Sen
Department of Preventative Medicine
University of Tennessee Health Science Center

There is no fee associated with this webinar, but users are asked to register to receive the Zoom link and password.

Registration: http://bit.ly/osga_2021-03-12

Goals of this webinar:
We will introduce R programming language and outline the benefits of learning R. We will give a brief tour of basic concepts and tasks: variables, objects, functions, basic statistics, visualization, and data import/export. We will showcase a practical example demonstrating statistical analysis.
Goals:
- Why should one use/learn R?
- How to install R/Rstudio
- Learn about R basics: variables, programming, functions
- Learn about the R package ecosystem that extends its capabilities
- See a basic statistical analysis example
- Learn about additional resources
